Flutter & **Full Stack App Developer** with **6 months** of internship experience in building cross-platform apps. Skilled in **Flutter**, **Firebase**, **Node.js**, **Express.js**, and **MongoDB** with strong expertise in responsive UI, API integration, and state management. Passionate about creating scalable, user-friendly, and high-performance applications.

💼 Work Experience

Flutter Trainee (Structured Training),
Okk Code Institute, Hisar

11/2023 – 04/2024

- Completed **Flutter training** covering **widgets**, **custom UI**, **API integration**, and **state management** (**GetX**, **Provider**).
- Built practice projects with **responsive UI**, **navigation**, **Firebase integration**, and **animations**.
- Collaborated using **Git/GitHub**, **code reviews**, and **API testing** with **Postman**.
- Optimized apps with **Flutter DevTools** and implemented **CI/CD** using **GitHub Actions**.

Flutter Developer Intern, *LazyBinary Pvt. Ltd, Sirsa, Haryana*

08/2024 – 01/2025

- Developed and deployed **cross-platform apps** using **Flutter** & **Dart**.
- Designed **responsive UIs** with **custom widgets** for seamless experience.
- Implemented **state management** with **GetX** & **Provider**.
- Integrated **REST APIs**, **Firebase Authentication**, **Firestore**, and **Realtime Database**.
- Improved apps via **bug fixing**, **performance optimization**, and **Flutter DevTools**.

Full Stack App Developer, *Okk Code Institute, Hisar*
(present)

- Gained hands-on experience in **backend development** by working on projects using **Node.js, Express.js, and MongoDB**.
- Explored and practiced **React Native** to build cross-platform mobile apps, enhancing full-stack development skills.

🎓 Education

Master in Computer Applications (MCA),
Guru Jambheshwar University, Hisar

2025 – Present

Flutter Mobile App Developer, *Okk Code Institute, Hisar*

11/2023 – 04/2024

(Completed)

🧠 Technical Skills

Languages
Dart, JavaScript

Frameworks
Flutter, React Native, Express, Node.js

Databases
Firebase, MongoDB, Cloudinary

Tools
Android Studio, VS Code, Git, Github, GitLab, Postman

State Management
GetX, Provider, React Query

📁 Projects

Intelsia App
- Developed a Flutter application for managing multiple screens dynamically using APIs and GetX.

HouszScore App
- Created a property purchase platform using Flutter and Firebase with real-time data management, authentication, and responsive layout.

Peglar (Web)
- Contributed to a web development project by integrating complex REST APIs using React Query to efficiently fetch, cache, and manage server state for a seamless user experience.

Hostigate (Web)
- Played a key role in the Hostigate web application by implementing robust API integration with React Query, ensuring real-time data synchronization and optimal performance
